Doppler response Laboratory

Isabela Reséndez A01194082

Tecnológico de Monterrey, Mty

19/05/22

1. Range-Doppler response using matched filter.

2. Estimate Doppler and range from range Doppler response

“The target is approximately 2250 meters away and is moving fast enough to cause a doppler shift of approximately 712.8906 Hz.

dop_est = -712.8906

mg_est = 2250

3. Range Doppler Response of FMCW signal.
