19/05/2022

1. Range-Doppler response using matched filter.

2. Estimate Doppler and range from range Doppler response.

“The target is approximately 2250 meters away and is moving fast enough to cause a Doppler shift of approximately 712.8906 Hz.”

dop_est= -712.8906

rng_est= 2250

3. Range Doppler Response of FMCW signal.
